## Famous Singing Twins become Rotarians

Singing twins Francine and Nicola Gleadhall have recently been given honorary membership of Drone Valley club. This idea was suggested by Rotary District Governor Val Leivers and the club were pleased to take up the suggestion in honour of the help and support the twins have given to the club over several years.

During this time they have generously given their time to sing at and support many events that have enabled the club to successfully raise money for many local and overseas charities.
